KROMET SOLAR NEWS : PRODUCT UPDATE

Kromet Solar announces new high performance 240W panel from Sharp. Ontario domestic content compliant product available immediately.

CAMBRIDGE, Ontario (June 8, 2011) – Kromet Solar Inc. today announced the availability of its new high performance solar module from Sharp Electronics – the 240-watt ND-L240Q2. Kromet Solar Inc. supplies a full range of Sharp solar panels in addition to Kromet solar racking systems which are manufactured in its facilities in Cambridge and Hamilton, Ontario.

Kromet will begin shipping the 240 watt ND-L240Q2 polycrystalline panel immediately. The panels feature Ontario domestic content compliance. Kromet solar products are available now for pick-up in Cambridge or site delivery. The product also comes with Kromet's local Ontario service and support including Sharp's 25-year limited warranty on power output.

"We are pleased to add this new high performance panel to our industry-leading Sharp line-up" said David McQueen, President, Kromet International. "We see the ND-L240Q2 delivering on the performance, bankability and value requirements of microFIT and FIT rooftop developers across Ontario. This product meets the needs of the rooftop market given its superior power density."

Sharp panels which use silicon refined in Ontario are compliant with the 2011 Ontario FIT content rules. Kromet Solar's racking system is a perfect complement for the Sharp panels and is also fully compliant with domestic content requirements.

Sharp is one of the world's leading producers of solar panels. Kromet Solar now supplies the popular 230W, 235W and 240W polycrystalline modules from Sharp. The panels will come with Sharp's 25 year warranty. Kromet Solar will provide local service and support for its customers including site assessment and installation support. Kromet has been a manufacturing partner with Sharp for nearly 20 years.

ABOUT KROMET Kromet Solar Inc. is a Canadian source for Sharp Solar Photovoltaic panels, racking and accessories. Headquartered in Cambridge, Ontario, Kromet Solar designs and manufactures aluminum solar racking which can be combined with Sharp Solar panels, quality inverters and industry leading installation and site engineering services to meet FIT compliance rules for the Ontario market. Kromet Solar racking is also available to other markets throughout North America. Kromet International is a leading manufacturer of aluminum and steel products with manufacturing and locations in Canada, Mexico and China. Kromet has been manufacturing in Canada for over 30 years. Kromet Solar and Kromet International are part of the Kromet group of companies. For more information on Kromet Solar or Kromet International please visit www.krometsolar.com or www.kromet.com
